

# P20SLD

176° viewing angles

See things more clearly, from any angle: Introducing the **PDI Communications P20SLD** with 176° viewing angles.

At PDI Communications, our focus is exclusively on the Healthcare Market. Specifically, our goal is to make patients more comfortable through communications devices designed for patient rooms. The latest product of this 20-year commitment is the **P20SLD**, a state-of-the-art digital LCD Television expressly designed for the Healthcare Market. The **P20SLD** flat screen offers numerous advantages, especially in shared environments.

- Better view from anywhere in the room: With the largest viewing angle of any 20" LCD TV on the market today. Consumer or commercial (Horiz = 176° Vert = 176°) the **P20SLD** provides optimum viewing in shared rooms for all occupants.
- Bright and clear picture from any angle: State of the art LG Philips LCD Panel utilizing S-IPS (Super In Plane Switching) technology provides high resolution, high contrast images with extremely small changes in color across the entire viewing angle.
- Designed exclusively for Healthcare/Hospital applications: State of the art LCD Television – not a converted consumer product – easily meets the demands and requirements of Hospital use.
- Superior sound built-in: With 4 speaker, 3 Watts per channel, Stereo Surround Sound, the **P20SLD** produces excellent sound reproduction to enhance the viewing experience.

For a complete information and design specifications kit on the **P20SLD** or any other PDI product, call 1-800-628-9870, or visit [www.pdiarm.com](http://www.pdiarm.com).

## *Better Solutions Are Within Reach* ®

For 20 years PDI Communications has been serving the Healthcare Market with its Personal Televisions, mounting arms and related hardware and equipment. We introduced the first Arm Mounted LCD TV/Monitor for healthcare applications in 2001 and earlier this year we introduced the Persona<sup>9</sup>, the latest in Personal Healthcare Television.
